Största hotet kommer inifrån

Fortinet Security Fabric

Bred

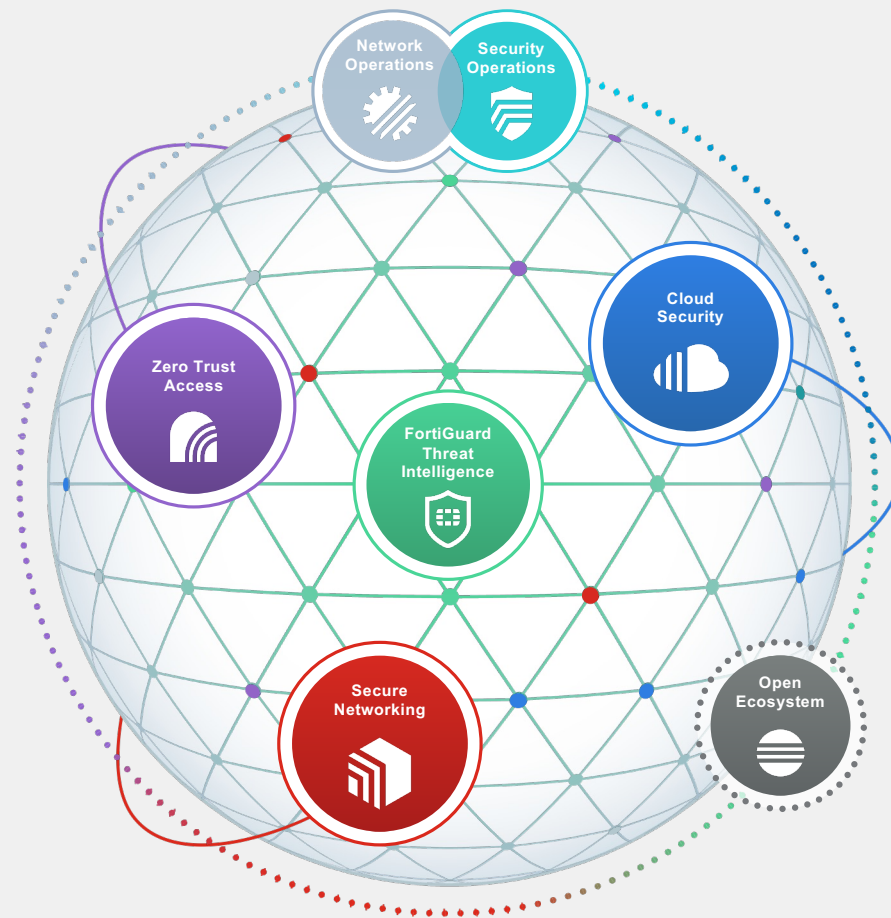

Visibilitet och skydd genom hela den digitala attackytan

Integrerad

Minskar komplexitet och delar information

Automatiserad

Självläkande nätverk med AI-driven säkerhet för effektiv drift

Kommundesign

Kommun i Sverige

En resa i flera steg

Brandväggsbyte

Nätverksinfrastruktur

- Security Fabric

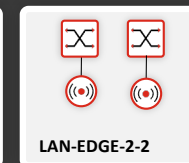

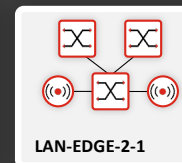

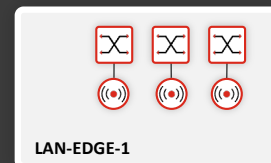

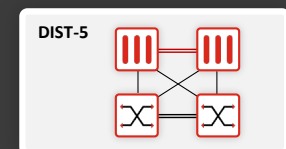

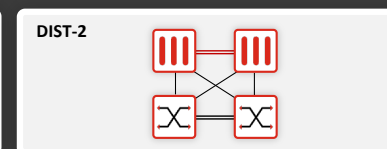

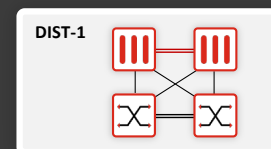

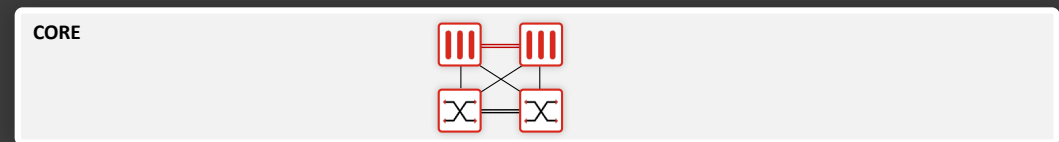

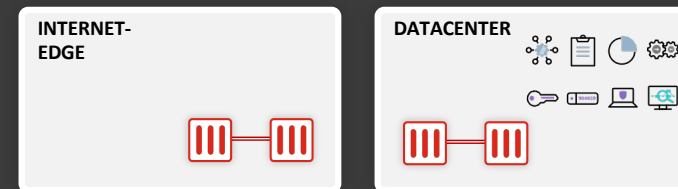

Zero-Trust

- Identitetshantering
- Autentisering
- Multi-Faktor

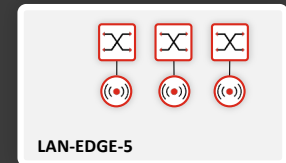

Klientskydd

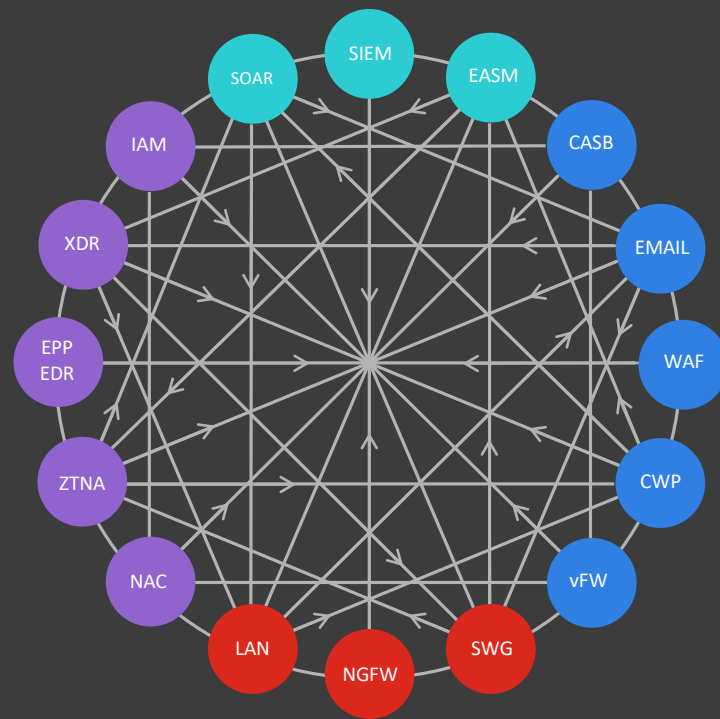

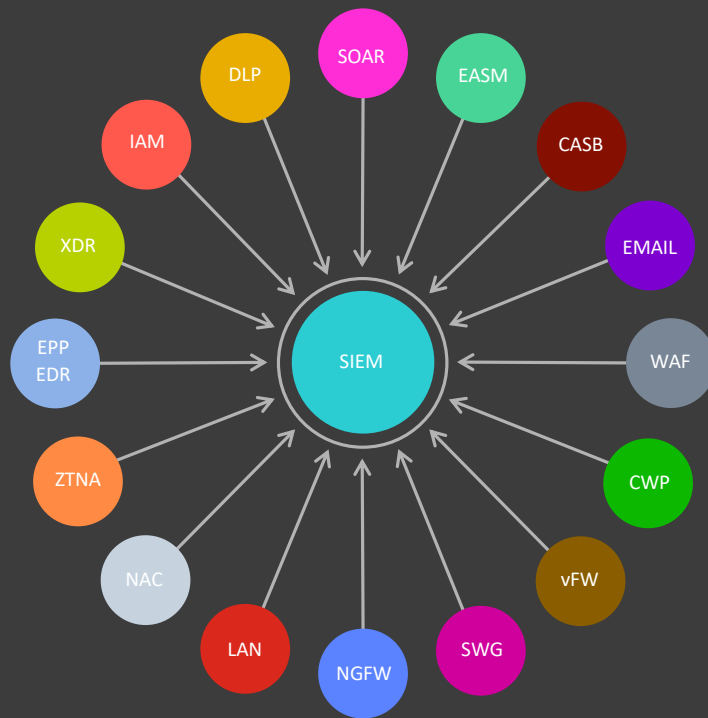

- A/V, Sårbarhetskanning

Automatisering

...

Säkerhet kan vara komplext.

Men det måste inte vara krångligt!
